

ET-ONDA Soldering Wave System

Strong and simple bench Pump Solder unit for coils soldering

- Body pump "easy remove" to simplify maintenance and cleaning
- Interchangeable nozzle to obtain right wave shape
- Cochlea speed regulation to obtain right flow
- Adjustable temperature by digital instrument
- Wave flow continuous or starting by pedal
- Easy nitrogen installation

Technical data subject to change without notice

- | | |
|-------------------------|----------------------|
| - Overall size | : 400x500xH500 mm |
| - Cochlea rotation | : Servomotor 200W |
| - Cochlea speed | : From 0 to 3000 Rpm |
| - Temperature | : Max 500 ° |
| - Weight | : 25 Kg. |
| - Solder bath capacity | : 7 Kg. |
| - Resistance power | : 2400 W |
| - Electric power supply | : 230V 50Hz, |
| - Normative | : CE |
